 [Ahmad Barish](#)

Passionate Frontend Developer driven by the satisfaction of bringing projects to life.
Dedicated to leveraging programming skills to create innovative solutions that positively impact people's lives.
Eager to continue growth and learning in the field.

WORK EXPERIENCE

• Frontend developer, Code vay:

2024-2024

I have worked as a full time remotely in web design, web programming, and provided some services in databases and server management.

• Frontend developer, Freelancers:

2022-2024

- I have freelanced professionally as a web programmer.
- designed 12 websites for different clients.
- Gained experience working in a team.

PROJECTS

• website Idlib University:

Electronic Platform for the Faculty of Informatics Engineering at Idlib University.

• website syrian supermarket:

I have successfully developed a website for selling food products utilizing React js and Next js.

• Mobile application pharmacy:

I developed this application using React Native and FastAPI, and it's designed for pharmacy management.

• Dashboard Seja:

Developed dashboard using HTML/CSS/JavaScript.
